INFORMATIVE NOTES THAT CAN HELP YOU:

1. CHOICE:

Choose your machine so that the crane arm covers the entire length of your vehicle.

Mounting a proportionate machine gives more security on the road, and while working, you'll have to move your vehicle just once more.

Our concept is a lighter, faster and more comfortable manipulator.

2. SAFETY:

Some customers have made defective assembly and this can give rise to irregularities in the use, or in the worst case, fixation breaks.

We would be happy to review the assembly's photos, do not hesitate to send them later. Better a scheme before the assembly.

Some videos are attached in the tab called INFORMATION PROGRAM.

Send these instructions to anyone who has to use the machine at any time.

Employees, coachbuilders or persons that made any maintenance.

The proper use of the machine, especially in the learning to unfold and fold, is very important. Misuse can cause significant damage to the machine, the operator or people who may be around.

Look at it several times so that once you are working you will be able to do it properly.

The warranty does not cover problems arising from defective assemblies, let advise you by a professional.

3. WE LIKE FLUID COMMUNICATION: 

We want your experience with our products to be pleasant and fruitful.

This requires a fluid communication that allows quick and easy solution to any setback. **Download Whatsapp on your smartphone.**

2- THE DELIVERY DATE THAT YOU RECEIVE, ARE MADE WITH THE GREATEST RIGOR. EVEN SO, WE ARE CONDITIONED BY THE DELIVERY TIMES OF THE ELEMENTS THAT FORM THE MACHINE. AND THIS ESCAPE OF OUR CONTROL, ALTHOUGH WE ALWAYS WORK WITH ANTICIPATION, WE CAN NOT ALWAYS GUESS UNEXPECTED CHANGES. FOR THIS REASON, WE DO NOT ACCEPT REQUESTS FOR COMPENSATION FOR DELAY IN THE PLANNED DELIVERY DATE.
